## Management Discussion & Analysis Report Structure and Developments

India is second largest producer and largest consumer of sugar in the world accounting for nearly 20% of global sugar production and 17% of consumption in the Triennium Ending (TE) 2023-24. Sugar sector is one of the most important sectors in Indian economy. It plays a crucial role in rural development and supporting over 50 million farmers and workers. It plays vital role in the rural economy and contributes to national GDP through agriculture, manufacturing and energy. The industry is comprising of co-operative sugar mills (35% - 40%), Private Sugar Mills (55% - 60%) and small number of mills owned by state governments. Uttar Pradesh, Maharashtra and Karnataka are the major producers.

The sugar industry in India, which was subjected to cyclical fluctuations due to natural and socio-economic factors, has emerged as a robust and dynamic sector in recent years due to various initiatives taken by the Government.

The Government of India has taken several initiatives to diversity sugar industry by promoting production of bio-ethanol, cogeneration, Bio-Compressed Natural Gas (Bio-CNG), Compressed Bio-Gas (CBG), potash-based fertilizers etc., The most significant initiative, which has resulted in diversification of Indian Sugar Sector has been

the National Policy on Biofuels, 2018 which promotes blending of ethanol with petrol. Although the ethanol program was initiated in the year 2003, the policy announced in the year 2018 was a game changer leading to significant increase in ethanol production and blending percentage.

Sugarcane production in the country, which was increased for three consecutive years from 2020-21 to 2022-23, declined by (-) 7.6% in 2023-24 due to adverse climatic conditions. Consequently, net sugar production also fell by (-) 3.1 percent in 2023-24 despite lower diversion (2.4 million tonnes) for ethanol compared with 2022-23 (4.3 million tonnes). As per the first advance estimates for 2024-25, sugarcane production is estimated to decline by (-) 2.9 percent due to 6.5 percent reduction in area under sugarcane. Net Sugar production is also estimated to be lower in 2024-25 season than 2023-24 due to lower cane production and higher diversion for ethanol production in 2024-25. Domestic sugar consumption has been estimated at 29.7 million tonnes in 2023-24 and expected to remain at the same lever in 2024-25. However comfortable stock position will ensure sufficient availability of sugar in the country. (Source: CACP Report Nov.2024)

### Opportunities and Threats

#### The Indian sugar industry is poised for significant growth, driven by several favourable factors:

- ❖ **Ethanol Production Expansion:** The government's push for a 20% ethanol blending target by 2025 presents a major opportunity. The target of 4 billion litres of ethanol from sugarcane-based feedstock is expected to boost distillery capacity, with an anticipated 20% growth in the near term.
- ❖ **Land Availability and Expansion:** India currently cultivates sugarcane on approximately 6 million hectares. There is potential to expand this area by an additional 0.5 to 1 million hectares over the next 2-3 years, enhancing raw material availability.
- ❖ **Government Support and Irrigation Projects:** New government-backed irrigation initiatives are expected to improve water availability and crop productivity, especially in drought-prone regions.
- ❖ **Crushing Capacity and ROI:** The potential for new crushing capacity and improved return on investment (ROI) from sugarcane cultivation is encouraging increased farmer participation and mill expansion.
- ❖ **Export Potential:** With rising global demand, India has the opportunity to increase sugar and ethanol

exports, especially to countries seeking alternatives to fossil fuels and traditional sweeteners.

- ❖ **By-product Utilization:** The industry is increasingly leveraging by-products such as bagasse for cogeneration, molasses for ethanol, and press mud for bio-fertilizers, contributing to a circular economy.
- ❖ **Technological Advancements:** Adoption of precision farming, satellite monitoring, and AI-based crop management tools is improving yield forecasting and operational efficiency.

#### Threats

#### Despite the promising outlook, the industry faces several challenges:

- ❖ **Price Volatility:** Fluctuations in domestic and international sugar prices impact profitability and planning.
- ❖ **Climate Change:** Unpredictable weather patterns, droughts, and floods adversely affect sugarcane yield and quality.
- ❖ **Cyclical Nature of Production:** The industry is inherently cyclical, with alternating periods of surplus and deficit, leading to inconsistent profitability.

- ❖ **Competition from Alternative Sweeteners:** The growing popularity of low-calorie and natural sweeteners (like stevia and monk fruit) poses a long-term threat to traditional sugar demand.
- ❖ **Policy and Regulatory Risks:** Frequent changes in export policies, ethanol pricing, and sugarcane procurement regulations can create uncertainty for stakeholders.

### **Risks and Concerns**

#### **The Indian sugar industry faces several structural and operational risks that could impact its long-term sustainability and profitability:**

- ❖ **Global Price Volatility:** The industry is highly sensitive to fluctuations in international sugar prices, which can influence domestic pricing and mill margins, especially during surplus years.
- ❖ **Climate Change and Weather Uncertainty:** Increasingly erratic weather patterns-such as unseasonal rains, droughts, and rising temperatures- pose a serious threat to sugarcane cultivation, potentially reducing yields and increasing input costs.
- ❖ **Policy Dependency:** The sector is heavily reliant on government interventions, including subsidies, export quotas, and ethanol pricing. Sudden policy shifts can disrupt planning and financial stability.
- ❖ **Financial Stress in Mills:** Many sugar mills, particularly in the cooperative sector, are burdened with high debt levels and face challenges in maintaining liquidity. This often leads to delayed payments to farmers, affecting the entire supply chain.
- ❖ **Low Mechanization in Agriculture:** The sugarcane farming sector continues to suffer from poor mechanization, leading to high labor costs, inefficiencies, and delayed harvesting.
- ❖ **Water Usage Concerns:** Sugarcane is a water-intensive crop, and balancing its irrigation needs with the demands of other sectors (like drinking water and industrial use) is becoming increasingly difficult, especially in water-scarce regions.
- ❖ **Cyclical Nature of the Industry:** The sugar industry experiences boom-and-bust cycles, with alternating periods of surplus and deficit, making it difficult to

maintain consistent profitability and investment momentum.

- ❖ **Environmental Regulations:** Growing environmental scrutiny and potential future regulations on carbon emissions, effluent discharge, and water usage could increase compliance costs for mills.

### **Outlook**

The outlook for the Indian sugar industry is cautiously optimistic, supported by strong policy backing, technological advancements, and evolving market dynamics. The government's continued emphasis on ethanol blending, with a target of 20% blending by 2025, is expected to provide a stable revenue stream and reduce the industry's dependence on sugar alone.

### **Key Growth Drivers:**

- ❖ **Biofuel Diversification:** Expansion into ethanol production from sugarcane juice and molasses is transforming the industry into a key player in India's energy transition strategy, reducing reliance on fossil fuels and supporting rural economies.
- ❖ **Sustainable Agricultural Practices:** Adoption of drip irrigation, mechanized harvesting, and high-yielding cane varieties is improving productivity and resource efficiency.
- ❖ **Export Potential:** With global sugar consumption growing at approximately 2% annually, India is well-positioned to become a major exporter, especially to deficit regions in Asia and Africa.
- ❖ **Technology Adoption:** Increasing use of digital tools, satellite monitoring, and AI-driven crop management is enhancing operational efficiency and decision-making across the value chain.

### **Challenges to Monitor:**

- ❖ **Climate Vulnerability:** The industry remains exposed to climate change risks, including erratic rainfall and rising temperatures, which can impact cane yields and quality.
- ❖ **Price Volatility:** Both domestic and international

sugar prices remain volatile, affecting profitability and investment planning.

- ❖ Financial Health of Mills: Many mills, particularly in the cooperative sector, continue to face liquidity issues and high debt burdens, which may hinder modernization efforts.
- ❖ Emerging Energy Alternatives: The rise of electric vehicles (EVs) and hydrogen energy could, in the long term, reduce the demand for ethanol as a transport fuel, potentially impacting future revenue streams.

Overall, the Indian sugar industry is at a strategic inflection point. Its ability to adapt to changing energy landscapes, embrace sustainable practices, and leverage global demand will determine its long-term success. With the right mix of policy support, innovation, and financial discipline, the industry can evolve into a diversified, resilient, and globally competitive sector.

## 26 Overview of the entity's material responsible business conduct issues

Material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications:

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk /opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Energy Efficiency & Water Management	Risk & Opportunity	<p><b>Risk</b> - High capital costs for upgrading to energy-efficient systems pose a key challenge. Shifting regulations may affect the effectiveness of current efficiency measures. Ageing water infrastructure risks include leaks, poor distribution, and increased operational costs. Non-compliance could lead to legal penalties and restricted operations.</p> <p><b>Opportunity:</b> Investing in energy-efficient technologies can yield long-term cost savings by reducing utility expenses and often recovering initial investments. Similarly, efficient water management helps conserve scarce resources, particularly in water-stressed or highly regulated regions. Adoption of water-saving technologies can lower water and wastewater costs, improving overall operational efficiency.</p>	The Company has implemented energy-saving systems, including Variable Frequency Drives (VFDs), to optimise power usage. It utilises renewable energy by repurposing sugarcane bagasse as boiler fuel for cogeneration, converting waste into electricity. Effluent water is treated using aerobic digesters to achieve zero liquid discharge. Notably, the Company has maintained strict environmental compliance, with no incidents of groundwater or surface water contamination.	<p><b>Positive:</b> Energy-saving initiatives often yield rapid returns on investment, with many delivering a short payback period. This contributes to enhanced cash flow and greater financial stability for both businesses and individuals. Proactively managing water resources also helps mitigate the risk of penalties and fines arising from regulatory non-compliance.</p> <p><b>Negative:</b> Upgrading to energy-efficient technologies or enhancing energy efficiency in buildings and operations often requires a significant initial investment.</p>
2.	Raw material sourcing	Risk	Risk: Raw material costs can fluctuate significantly due to various factors, including supply and demand dynamics, geopolitical developments, weather conditions impacting agriculture, and fluctuations in currency exchange rates. Supply chain disruptions are more likely when raw material sources are limited by specific suppliers or geographic regions.	The sugar unit sources 100% of its sugarcane from farmers, while the distillery obtains its entire raw material, molasses, from sugar mills.	Negative: Weather patterns, supply-demand dynamics, geopolitical events, and global economic conditions can lead to significant fluctuations in raw material costs. Unforeseen price increases may impact competitiveness by driving up production costs, reducing profit margins, or forcing businesses to pass on costs to customers.
3.	Product Quality & Safety	Risk & Opportunity	<p>Risk: Risk to product quality can arise from poor manufacturing processes, equipment failures, or human errors. Inadequate maintenance, insufficient process controls, or lack of training can lead to defects, non-compliance with specifications, or safety incidents. Substandard product design or inadequate testing of new raw material variants may result in product failures or recalls.</p> <p>Opportunity: Customers tend to trust and remain loyal when products consistently meet safety</p>	The Company ensures that all product information displayed, including food safety instructions on labels, is reviewed for accuracy in accordance with applicable regulations. The Company also implements process quality checks, employee training, and routine audits to ensure product quality and safety compliance.	<p>Positive: Improving product quality and safety helps reduce costs associated with defects, rework, returns, and claims. By minimizing these expenses, businesses can boost profitability and optimize resource management.</p> <p>Negative: Implementing stringent quality control and safety procedures requires significant investment in infrastructure, skilled labor, and testing equipment. These upfront costs can strain budgets.</p>

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk /opportunity	In case of risk, approach to adapt ormitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			regulations and high-quality standards. Satisfied customers are more likely to recommend the product to others and make repeat purchases, driving long-term business success. Reliability and high quality become key selling points that attract clients who prioritize these qualities in their decision-making.		
4.	Employee Health & Safety	Risk	Risk: Inadequate training and the lack of proper safety regulation implementation can lead to workplace accidents and injuries. Prolonged exposure to hazardous substances, poor ergonomics, or repetitive tasks can result in long-term health issues, including respiratory ailments, musculoskeletal disorders, and other occupational health problems.	The company provides training programs in Health and Safety. It is certified under OHSMS - ISO 45001:2018 (Occupational Health and Safety management system) and has implemented comprehensive safety management systems in the workplace. Additionally, the company has an On-Site Emergency Plan and a Major Emergency Control Plan, both approved by regulatory authorities.	Negative: Workers' compensation claims, covering medical expenses, rehabilitation costs, and wage replacement benefits, arise from job-related injuries or illnesses. Noncompliance with occupational health and safety regulations can lead to fines, penalties, and legal expenses. Violations may result in sanctions from regulatory bodies, and legal costs may escalate if injured workers or their families pursue lawsuits.
5.	Employee Engagement & Development	Risk & Opportunity	<p>Risk: Employee burnout can occur when high levels of engagement and development activities are not balanced with sufficient downtime and recovery. Burnout negatively affects retention, morale, and productivity. Employees may become resistant to new projects or organizational changes, particularly if they perceive these changes as threatening job security or disrupting their routines.</p> <p>Opportunity: Engaged employees who feel valued and have opportunities for growth are more likely to remain with the company. Reduced turnover leads to savings in hiring, onboarding, and training costs. Employee engagement drives higher productivity and improved job performance, as motivated and committed workers tend to be more successful.</p>	The Company conducts regular employee surveys to assess engagement and well-being and uses the results to inform policies. Training and development programs are structured with periodic evaluations and feedback mechanisms. Managers are trained to identify burnout risks and promote work-life balance through flexible scheduling and workload planning.	<p>Positive: Motivated and engaged employees generally deliver higher productivity in their roles. When employees have growth opportunities and feel valued, their dedication and productivity are likely to rise. Increased output per worker enhances overall productivity, driving operational efficiency and reducing costs per unit of output.</p> <p>Negative: Engaged employees who are provided with growth opportunities become more valuable to employers. Employee turnover costs, including hiring, onboarding, and lost productivity during transitions, arise when employees leave the company after completing training or development programs.</p>

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk /opportunity	In case of risk, approach to adapt ormitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
6.	Supply Chain Management	Risk	Risk: Businesses dependent on suppliers for components, finished goods, or raw materials face risks such as supplier bankruptcy, poor quality, delayed deliveries, or unexpected price changes. Subpar supplier performance can disrupt production schedules, leading to inventory shortages and dissatisfied customers. External factors like trade disputes, natural disasters, geopolitical events, or public health crises, such as pandemics, can further disrupt global or regional supply chains.	100% of the suppliers have been assessed by the audit for health & safety conditions.	Negative: Ineffective inventory management, such as overstocking and stockouts, can tie up working capital and increase storage costs. Stockouts result in missed sales opportunities and reduced revenue, while excess inventory consumes capital that could be better allocated elsewhere.
7.	Business Ethics	Risk	Risk: Fraud, corruption, and environmental violations are ethical breaches that can severely damage a company's reputation. Violating ethical standards may lead to fines, penalties, and regulatory consequences. Breaching laws related to consumer rights, environmental protection, bribery, or discrimination can result in costly legal actions and reputational harm.	Robust policies and mechanisms must be established to foster a culture of integrity and ethical conduct, while addressing emerging risks and challenges. The organization remains committed to conducting all operations with the highest standards of honesty, integrity, governance, ethics, and transparency, ensuring full compliance with all relevant laws and regulations.	Negative: Legal and regulatory violations often go hand in hand with breaches of ethical standards. Businesses involved in investigations, litigation, or settlements may incur fines, penalties, and legal costs. These expenses can accumulate, negatively affecting profitability.

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.
- The company adopts a sustainable approach to waste management and energy efficiency by repurposing by-products and optimizing processes:
- Spent wash is treated using an anaerobic digestion process in a biogas plant, generating biogas that is utilized as boiler fuel, reducing reliance on conventional energy sources.
  - The introduction of Falling Film Evaporators has significantly enhanced operational efficiency by minimizing steam usage. This has led to lower bagasse consumption and a measurable reduction in greenhouse gas emissions, contributing to better resource utilization and environmental sustainability.
  - CO<sub>2</sub> recovery equipment installed in the distillation plant to capture the CO<sub>2</sub> produced during the distillation process.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

NA

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives:

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Recycling and reusing of waste water	Reduces consumption of fresh/raw water	Condensate Polishing Unit (CPU) treats and recycles condensate water in sugar units by removing organic and inorganic impurities, supporting Zero Liquid Discharge (ZLD) goals.
2	Comprehensive water management in distillery	Minimizes freshwater consumption and enables Zero Liquid Discharge (ZLD)	Spent wash, spent lees, cooling tower blowdown, and WTP reject are treated via biodigesters, ETP, and RO. RO permeate is reused, and RO reject is used in biocomposting. Complies with CPCB and TNPCB norms.
3	Emission control through Electrostatic Precipitator	Helps to maintain CPCB norms and reduces air pollution	ESPs are used to capture fine particulate matter from bagasse-fired boilers, minimizing emission of ash into the atmosphere.

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
4	Reuse of hot condensate through cooling towers	Reduces raw groundwater consumption	Cooling towers are installed to reuse cooled condensate in industrial operations, improving water efficiency.
5	Green belt development around industrial units	Improves environmental sustainability and reduces pollution	In line with TNPCB norms, green belt development is undertaken to increase green cover around industries.
6	Energy recovery through UASBR	Reduces organic load and generates biogas for energy	UASBR reactors treat wastewater anaerobically, producing biogas which is used to power effluent treatment plants and for irrigation.
7	Energy efficiency using Variable Frequency Drives	Reduces electricity consumption and improves process control	VFDs regulate motor speeds to optimize energy use across sugar manufacturing processes.

5.	Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.	The On-Site Emergency Plan and Major Emergency Control Plan have been duly approved by the Department of Factories, Boilers, Industrial Safety & Health, Government of Karnataka. These approvals ensure the company's preparedness to effectively manage and mitigate industrial emergencies in compliance with applicable safety regulations.
6.	Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard	Sustainable farming practice and organic manuring is initiated, and the process is in progress.
7.	Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.	Approximately 90% of farmers are supported by our cane development team in adopting Integrated Cane Management Systems, promoting sustainable and efficient agricultural practices. This initiative enhances crop yield, optimizes resource use, and aligns with the company's commitment to environmentally responsible farming.

**PRINCIPLE 7 : Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent**

**Essential Indicators**

1	a.	Number of affiliations with trade and industry chambers / associations.	The Company actively collaborates with ISMA, SISMA, and other industry associations to advocate for policies and initiatives that promote the growth of the industry and serve the broader public interest. It extends support to various government-led programmes focused on farmer welfare, environmental sustainability, and customer awareness and education.
	b.	List the top 10 trade and industry chambers / associations (determined based on the total members of such body) the entity is a member of / affiliated to.

## PRINCIPLE 9 : Businesses should engage with and provide value to their consumers in a responsible manner

### Essential Indicators

1	Describe the mechanisms in place to receive and respond to consumer complaints and feedback.	<p>The Company has a comprehensive customer complaint management process in place to ensure timely redressal and continuous improvement.</p> <p>Customer complaints-whether verbal or written-can be submitted via phone, email, or in person. Once received, the Sales Department at the Head Office logs the complaint and notifies the relevant Unit Head, Process Head, and Quality Assurance (QA) Head. All complaints are recorded in the complaint register and categorized based on severity-Critical, Major, or Minor. Root cause analysis is conducted, and corrective action is initiated based on the complaint type.</p> <p>The QA Head is responsible for determining the need for a formal investigation and assigning it to a designated investigator. The assigned investigator must complete and document the investigation promptly. The QA Head monitors the progress of the investigation and the implementation of corrective measures.</p> <p>Customer Feedback Analysis:</p> <p>Annually, customer feedback forms are circulated and collected within a month. Feedback is analyzed based on specific attributes and scored as follows: 1 (Poor), 2 (Fair), 3 (Good), and 4 (Excellent). A score of 3 identifies areas needing improvement, while scores below 2 trigger corrective action. Feedback with poor ratings is escalated to senior management for appropriate action and resolution.</p> <p>In addition, the Company regularly designs, updates, and communicates Standard Operating Procedures (SOPs) to meet food safety and quality standards across all units.</p>

- v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') :-
  - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
  - b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
  - c) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
  - d) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 and its amendment from time to time.

vi) and other laws applicable to the Company viz.,:-

1. Essential Commodities Act, 1955
2. The Sugarcane (Control) Order, 1966 and Sugar (Control) Order, 1966
3. Sugar Cess Act, 1982
4. Sugar Development Fund Act, 1982
5. Food Safety and Standards Act, 2006
6. The Boiler Act, 1923
7. The Electricity Act, 2003
8. The Legal Metrology Act, 2011
9. Karnataka Sugar Cane (Regulation of Purchase and Supply) Act, 2013
10. The Factories Act, 1948
11. Industrial (Development and Regulations) Act, 1951
12. The Information Technology Act, 2000
13. Environment Protection Act, 1986
14. The Water (Prevention and Control of Pollution) Act, 1974
15. The Air (Prevention and Control of Pollution) Act, 1981
16. The Employees' Provident Fund and Miscellaneous Provisions Act, 1952
17. Employees State Insurance Act, 1948
18. The Payment of Wages Act, 1956
19. The Minimum Wages Act, 1948
20. The Industrial Employment (Standing Order) Act, 1946
21. The Employees' Compensation Act, 1923
22. Equal Remuneration Act, 1976
23. The Payment of Bonus Act, 1965
24. The Payment of Gratuity Act, 1972
25. The Insecticides Act, 1968
26. Land Revenue and other local laws applicable to its plant and offices
27. And all other applicable laws pertaining to Sugar Industry including Co-generation of Power, Distillery and Granite Industries.

As per the information and explanation provided by the management and officers of the Company and also on verification of reports and certificates of professionals, we report that the adequate systems are in place to monitor and ensure compliance of Laws relating to Direct and Indirect Taxes and Labour and other Legislations.

We have also examined compliance with the applicable Regulations issued by the Securities Exchange Board of India (Listing Obligations and Disclosures Requirements) Regulations, 2015 and Secretarial Standards issued by the Institute of Company Secretaries of India.

During the year under review the Company has complied with all the applicable Acts, Rules, Regulations, Guidelines, Standards, etc. including the laws mentioned above.

We further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors, Independent Directors and a Woman Director. There were changes in the composition of the Board of Directors during the period under review viz:

Sri.C.Devarajan, Sri.M.Rathinasamy, and Sri.M.Ponnuswami have been appointed as Independent Directors for a term of five consecutive years from 23.08.2024 to 22.08.2029. ## **INDEPENDENT AUDITORS' REPORT**

To

The Members of Bannari Amman Sugars Limited  
Report on the Audit of the Financial Statements

### **Opinion**

1. We have audited the accompanying financial statements of Bannari Amman Sugars Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended on that date and notes to the financial statements, including a summary of material accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the profit including other comprehensive income, the changes in equity and its cash flows for the year ended on that date.

### **Basis for Opinion**

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Key Audit Matters**

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our report.

Sl. No.	Description of Key Audit Matter	Description of Auditors' Response
4.1	<p><b>Inventory valuation of sugar as at the year ended March 31, 2025</b></p> <p>(Refer to the accompanying Note No.9 forming integral part of the Financial Statements)</p> <p>The Company's closing stock of sugar as at March 31, 2025 is Rs. 69,579.39 lakhs. The inventory of sugar is valued at the lower of Weighted Average cost and net realizable value.</p> <p>We considered the valuation of the inventory of sugar as a key audit matter given the relative size of the balance in the financial statements and significant judgement involved in the consideration of factors such as minimum sale price, monthly quota, fluctuation in selling prices and the related notifications of the Government in determination of net realizable value.</p>	<p>We understood and tested the design and operating effectiveness of controls as established by the management in determination of cost of production and net realizable value of inventory of sugar.</p> <p>We have tested the adequacy of the method used for the cost of production and reliability of data and the procedures followed for arriving at the cost of sugar.</p> <p>We reviewed the accounting policy followed for valuation of inventory of sugar and appropriateness thereof with respect to Ind AS 2 "Inventories" issued by ICAI. We considered various factors including the actual selling price prevailing around and subsequent to the year end, minimum selling price &amp; monthly quota and other notifications of the Government of India, initiatives taken by the Government with respect to sugar industry as a whole.</p> <p>Based on the above procedures performed, the inventory valuation of sugar as at the year-end is considered to be reasonable.</p>

#### Information other than the Financial Statements and Auditors' Report thereon

- The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on other information, we conclude that there is a material misstatement, if any, of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Management and those Charged with Governance for the Financial Statements

- The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS. This responsibility

also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

9. In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
10. Those Board of Directors is also responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - (b) Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
  - c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
  - d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- 15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

- 16. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 17. As required by Section 143(3) of the Act, we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
  - (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015 as amended.
  - e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
  - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
  - g) With respect to the matter to be included in the Auditors' Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i) The Company has disclosed the impact of pending litigations on its financial position in Note No.44 to the financial statements;
- ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- iii) There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Company.
- iv)
  - a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that the Intermediary shall whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
  - b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
  - c) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under subclause (i) and (ii) of Rule 11 contain any material mis-statement.
- v) The dividend declared and paid during the year by the Company relating to financial year 2023-24 is in compliance with Section 123 of the Act.
- vi) Based on our examination which included test checks, the company has used accounting software for maintaining its books of accounts for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software.

Further during the course of our audit, we did not come across any instance of audit trail feature being tampered with and the audit trail has been preserved by the company as per the statutory requirements for record retention.

- ix. a) According to the information and explanations given to us, the Company has not defaulted in repayment of dues to any lender during the year. The company has not issued any debentures.
- b) According to the information and explanations given to us, the company has not been declared as willful defaulter by any bank or financial institution or other lender.
- c) According to the information and explanations given to us, the company has not availed any term loans during the year.
- d) According to the information and explanations given to us and based on our overall examination of Financial Statements of the Company, the funds raised on short term basis by the company during the year have not been utilized for long term purposes.
- e) The Company does not have any subsidiaries, associates or joint ventures. Accordingly, the provisions of paragraph 3(ix)(e) and 3(ix)(f) of the Order are not applicable to the Company.

- x. a) The Company has not raised any money by way of Initial Public Offer or further public offer (including Debt instruments) during the year.  
b) According to the information and explanations given to us and based on our examination of the records, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year under review. Accordingly, the reporting under paragraph 3(x) of the Order is not applicable.
- xi. a) According to the information and explanations given to us, no fraud by the Company or any fraud on the Company has been noticed or reported during the year.  
b) According to the information and explanations given to us, no report under Section 143 (12) of the Companies Act has been filed in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules 2014 with the Central Government during the year and up to the date of this report.  
c) According to the information and explanations given to us, the company has not received any whistle blower complaints during the year. Accordingly, the reporting under paragraph 3(xi) of the Order is not applicable.
- xii. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, reporting under paragraph 3(xii) of the Order is not applicable.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by the applicable Indian Accounting Standards.
- xiv. a) According to the information and explanations given to us, the company has an internal audit system commensurate with the size and nature of its business.  
b) The Reports of the Internal Auditors issued till the date of the audit report for the period under audit were considered by us.
- xv. According to the information and explanations given to us and based on our examination of the records, the Company has not entered into non-cash transactions with the directors or persons connected with them and hence provisions of Section 192 of the act are not applicable to the Company. Accordingly, reporting under paragraph 3(xv) of the Order is not applicable.
- xvi. a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the paragraph 3(xvi) (a) of the Order is not applicable.  
b) The Company has not conducted any Non-Banking Financial or Housing Finance activities without a valid certificate of registration (CoR) from Reserve Bank of India as per Reserve Bank of India Act, 1934. Accordingly, the paragraph 3(xvi) (b) of the Order is not applicable.

- c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the paragraph 3(xvi) (c) of the Order is not applicable.
- d) There is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016). Accordingly, the paragraph 3(xvi) (d) of the Order is not applicable.
- xvii. The Company has not incurred any cash losses in the current financial year and the immediately preceding financial year. Accordingly, the reporting under paragraph 3(xvii) of the Order is not applicable.
- xviii. There has not been any resignation of the Statutory Auditors during the year. Accordingly, the reporting under paragraph 3(xviii) of the order is not applicable.
- xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans, we are of the opinion that no material uncertainty exists as on the date of the audit report and that the company is capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
- xx. a) According to the information and explanations given to us and based on our examination of the records, the company has spent the amount required to be spent as stipulated in section 135 of the act and does not have any unspent amount required to be transferred to a fund specified in schedule VII of the Act as per section 135(5) of the Act.

## **Annexure - B to the Independent Auditors' Report**

Referred to in paragraph 17(f) of the Independent Auditor's Report of even date to the members of Bannari Amman Sugars Limited on the financial statements for the year ended March 31, 2025

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

1. We have audited the internal financial controls over financial reporting of Bannari Amman Sugars Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial Statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls.**

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditor's Responsibility**

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls Over Financial Reporting**

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:
- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
  - b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and
  - c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

## Notes forming part of the Financial Statements for the year ended 31.03.2025

### NOTE 1:

#### Statement of Material Accounting Policies followed by the Company

##### COMPANY BACKGROUND

Bannari Amman Sugars Limited (the 'Company') is a Public Limited Company domiciled and incorporated in India under the Companies Act, 1956. The registered office of the Company is located at 1212 Trichy Road, Coimbatore 641 018. The Company has five sugar factories with aggregate capacity of 23700 MT of sugarcane crushing per day and 129.80 MW of Cogen Power. It has two Distillery units with the aggregate production capacity of 217.50 KLPD besides having Agri Natural Fertilizers, Granite Processing units. The company has seven Wind Mills with a total capacity of 8.75 MW. The company's Shares are listed in BSE and NSE.

The Company has conducted a materiality assessment of its accounting policy information. This process involves the application of professional judgment, considering both quantitative and qualitative factors. The assessment takes into account the size, nature, and condition of the item or event. Additionally, it evaluates the characteristics of transactions, events, or conditions that could significantly impact the decisions of financial statement users.

##### a) Basis of Preparation

###### i) Compliance with IND AS

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') notified under Section 133 of the Companies Act 2013 (the Act) read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The accounting policies are applied consistently to all the periods presented in the financial statements.

###### ii) Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities that are measured at fair value at

the end of the each reporting period.

Historical cost is generally based on the value of consideration given in exchange of goods and services. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

Fair value for measurement and/or disclosure purposes in these financial statement is determined on such a basis except for leasing transactions that are within the scope of Ind AS 116 and measurements that have similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 (Inventories) or value in use in Ind AS 36 (Impairment of Assets).

###### iii) Current and Non - Current Classification

All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act 2013.

Deferred Tax assets and liabilities are classified as Non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified Twelve months as its operating cycle.

###### iv) Rounding of amounts

All amounts disclosed in the financial statements and

notes have been rounded to the nearest lakhs and two decimal thereof as per the requirement of Schedule III, unless otherwise stated.

### **b) Use of Estimates and Judgements**

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after the date but provide additional evidence about conditions existing as at the reporting date.

### **c) Property, Plant and Equipment**

Property, Plant and Equipment that qualifies for recognition as an asset is measured at cost net of tax / duty credit availed less accumulated depreciation and accumulated impairment losses, if any. The Cost includes deemed cost as on the date of transition. Freehold land is not depreciated.

Cost includes related taxes, duties, freight, insurance etc., attributable to acquisition and installation of assets and borrowing cost incurred up to the date of commencing operations, but excludes duties and taxes that are recoverable from taxing authorities.

Subsequent cost are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. Cost in the nature of

repairs and maintenance are recognised in the Statement of Profit and Loss during the reporting period in which they are incurred.

Assets which are not ready for their intended use and other capital work in progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest. Advances given towards acquisition of Property, Plant and Equipment outstanding at each balance sheet date are disclosed as Capital Advances under Other Non-Current Assets.

### **Depreciation**

Straight line method has been adopted for providing depreciation on fixed assets other than Co-Generation Division and Wind Mill Division. For the assets of Co-Generation Division and Wind Mill Division, depreciation has been provided under written down value method. The assets are depreciated over the useful life as prescribed in Schedule II of the Companies Act, 2013. Depreciation on additions / deletions on Property, Plant and Equipment is computed on pro-rata basis from the date of purchase of such addition or upto the date of such deletion as the case may be. The residual values are not more than 5% of the original cost of the asset. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of changes in estimate accounted for on a prospective basis.

### **Derecognition**

The carrying amount of an item of Property, Plant and Equipment shall be derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property, plant and equipment shall be determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item. The same is recognised in the statement of profit and loss.

**d) Biological Assets**

Livestock are measured at fair value less cost to sell. Costs to sell include the transportation charges for transporting the cattle to the market but excludes finance costs and income taxes. Changes in fair value of livestock are recognised in the statement of profit and loss. Costs such as vaccination, fodder and other expenses are expensed as incurred.

Biological assets other than live stock are measured at fair value less cost to sell or at cost whichever is applicable. Changes in fair value of biological assets is recognised in the statement of profit and loss.

**e) Impairment of Non financial Assets**

Non financial assets are tested for impairment at the end of each reporting period as to whether events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the assets' carrying amount exceeds its recoverable amount. The recoverable amount is higher of an assets' fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash generating units). Non financial assets that suffered an impairment in prior periods are reviewed for possible reversal of the impairment at the end of the each reporting period.

**f) Derivative financial Instruments**

Derivative financial instruments such as forward contracts, to hedge its foreign currency risks are initially recognised at fair value on the date, a derivative contract is entered into. The same is subsequently remeasured at their fair value with changes in fair value recognised in the statement of profit and loss in the period when they arise.

**g) Financial Instruments**

A Financial Instrument is any contract that give rise to a financial asset of one entity and Financial Liability or

equity instrument of another entity. Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

**Financial Assets**

Financial assets, except trade receivables, are initially measured at fair value. Trade receivables are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the financial assets, on initial recognition.

**Investment in Equity instruments at Fair Value Through Other Comprehensive Income (FVTOCI)**

**Initial Recognition**

The Company measures investments in equity instruments at FVTOCI. These equity instruments are neither held for trading nor are contingent consideration recognised under a business combination. These elected investments are initially measured at fair value plus transaction costs.

**Subsequent measurement**

Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income.

**Dividend**

Dividend on investments in equity instruments are recognised in profit or loss unless the dividend does not represent a recovery of part of cost of the investment. Dividend is recognised only when the company's right to receive the dividend is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of dividend can be measured reliably. The Company has recognised dividend in Statement of profit and loss under 'Other Income' .

## **Derecognition**

A financial asset is derecognised when the contractual rights to the cash flows from the financial asset expires or the Company transfers the financial asset and substantially all the risks and rewards of ownership of the asset.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, but retains control of the financial asset, the Company continues to recognise the transferred asset to the extent of its continuing involvement. The extent of the Company's continuing involvement in the financial asset is the extent to which it is exposed to changes in the value of the transferred asset. In such cases, the Company also recognises an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On derecognition of such financial assets, the cumulative gain / loss previously recognised in Other Comprehensive Income is not reclassified from the equity to the Statement of Profit and Loss.

However, the company may transfer such cumulative gain / loss into the retained earnings within equity.

## **Impairment of Financial Asset**

The Company applies expected credit loss model for recognising impairment loss on financial assets measured at fair value through other comprehensive income (FVTOCI), trade receivables and other financial assets measured at amortised cost.

The Company follows a simplified approach wherein an amount equal to lifetime expected credit losses is measured and recognised as loss allowance in the case of trade receivables and lease receivables.

In case of other financial assets measured at fair value through other comprehensive income or at

amortised cost, the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk has not increased significantly, an amount equal to 12-month expected credit losses is measured as loss allowance and when the credit risk has increased significantly, an amount equal to lifetime expected credit losses is measured and recognised as loss allowance.

## **Financial Liabilities**

### **Initial Recognition**

Financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the issue of financial liabilities (other than financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial liabilities, on initial recognition.

### **Subsequent measurement**

Financial Liabilities are subsequently carried at amortised cost using the effective interest method, which is subsequently measured at fair value through profit or loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value to the short maturity of these instruments.

### **Derecognition**

A financial liability is derecognised when the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing financial liability is substantially modified, such an exchange or modification is treated as the extinguishment of the original liability and the recognition of a new financial liability. The difference between the carrying amount of a financial liability extinguished and the consideration paid is recognised in the Statement of Profit and Loss.

- ii) The cost of the finished goods and process stock comprises all cost of purchase, cost of conversion, duties and taxes (other than those subsequently recovered from tax authorities) and other costs incurred in bringing the inventories to their present location and condition.
- iii) Due allowance is estimated and made for defective and obsolete items wherever necessary.

**i) Fair value measurement**

The Company measures financial instruments, such as, investments at fair value at each balance sheet date. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy that categorises into three levels, described as follows, the inputs to valuation techniques used to measure value.

**Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities

**Level 2:** inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly

**Level 3:** inputs that are unobservable for the asset or liability.

For Assets and liabilities that are recognised in the financial statement on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by

reassessing the categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period

**ii) Revenue Recognition**

Revenue from contracts with customers is recognised on transfer of control of promised goods or service to a customer at an amount that reflects the consideration to which the company is expected to be entitled to in exchange for those goods or services. The company recognises the revenue at the amount of transaction price allocated to the performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

Revenue is recognised only to the extent that is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

**Sale of Goods :**

Revenue is recognised when the performance obligations are satisfied and the control of the product is transferred, being when the goods are delivered as per the relevant terms of the contract at

which point in time the Company has a right to payment for the asset, customer has legal title of the asset, customer bears significant risk and rewards of ownership and the customer has accepted the asset or the Company has objective evidence that all criteria for acceptance have been satisfied. Payment for the sale is made as per the credit terms in the agreements with the customers. The credit period is generally short term, thus there is no significant financing component.

Revenue is measured based on the transaction price, which is the consideration, net of customer incentives, discounts, variable considerations, payments made to customers, other similar charges, as specified in the contract with the customer. Additionally, revenue excludes taxes collected from customers, which are subsequently remitted to Government authorities.

Export incentives under various schemes are accounted in the year of export at the estimated realisable value.

### **Sale of Services**

The Company recognises its revenue from sale of services based on the recognition criteria that the outcome of a transaction involving the rendering of services can be estimated reliably.

Stage of completion of transactions is measured by determining the services performed till balance sheet date as a percentage of total services to be performed as per the contract. The credit period is generally short term, thus there is no significant financing component.

### **Dividend and Interest Income**

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from financial asset is recognised when it is probable that the economic benefits will flow to the entity and the amount of income can be

measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets' net carrying amount on initial recognition.

### **Rental Income**

Rental Income arising from operating leases are accounted over the lease terms and is recognised in the statement of profit and loss.

### **k) Foreign Currency Transactions**

The financial statements are presented in Indian Rupee which is company's functional and presentation currency. Foreign currency transactions are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transaction settled during the year are recognised in the statement of profit and loss. Foreign currency monetary items as at the balance sheet date are translated using the closing rate. The gain or loss arising out of these translations are recognized in the statement of profit and loss.

### **l) Provisions and Contingencies**

Provision is recognised only when there is a present obligation as a result of past event and it is probable that there will be an outflow of resources embodying economic benefits to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Contingent liabilities are disclosed when there is a possible obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of obligation cannot be measured reliably. When the possible obligation in respect of which the outflow of resources embodying economic benefits is remote, it is not been disclosed as Contingent Liability.

### **m) Income Tax**

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

### **Current Tax**

Current tax is the amount of income tax payable in respect of taxable profit for the year. The taxable profit differs from profit before tax as reported in Statement of Profit and Loss because of items of income or expenses that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period for the amount expected to be paid to / recovered from the taxation authorities.

Minimum Alternate Tax (MAT) credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the sufficient taxable profit will be available against which the MAT credit can be utilised.

### **Deferred Tax**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statement and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised on all temporary differences. Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. Deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of an asset or liability in a transaction (other than a business combination) affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets are recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised based on the review at the end of each reporting period by the company considering the likely timing and the level of

future taxable profits together with future tax planning strategies.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities..

As per the company's assessment on uncertainty over tax treatment on recognising Income tax with respect to Appendix C amendment, there are no material uncertainties over tax treatments.

### **Presentation of Current and Deferred Tax**

Current and deferred tax is recognised in the statement of profit and loss except to the extent it relates to items recognised in other comprehensive income or directly in equity. In such cases, the tax is also recognised in other comprehensive income.

"The company offsets current tax assets and current tax liabilities, where it is legally enforceable right to set off the recognised amount and where it intends either to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

In case of deferred tax assets and deferred tax liabilities, the company offsets only when they relate to income taxes levied by the same taxation authorities and it has legally enforceable right to set off current tax assets against current tax liabilities.

## **n) Employee Benefits**

### **Short Term Employee Benefits**

All employee benefits payable within twelve months of rendering service are classified as short term employee benefits and are recognised in the period

in which the employee renders the related service. The Company recognises the undiscounted amount of short term employee benefits expected to be paid as a liability after deducting the amount already paid.

### Post-employment Benefits

The Company operates the following post-employment schemes:

- a) defined contribution plans such as provident fund; and
- b) defined benefit plans such as gratuity.

### Defined Contribution Plans

Defined Contribution Plans are Provident Fund, Employee State Insurance scheme and Government administered Pension Fund scheme for all applicable employees.

The company recognises contribution payable to a defined contribution plan as expenses in the statement of profit and loss when the employee renders services to the company during the reporting period. If the contribution payable for services received from employee before the reporting date exceeds the contribution already paid, the deficit payable is recognised as a liability after deducting the contribution already paid.

### Defined Benefit Plans

#### Gratuity obligations

The Company operates a defined benefit plan for employees. The Company contributes to a separate entity (a fund), towards meeting the gratuity obligation. The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Independent actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash

outflows at a predetermined rate of interest based on the market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

### Other long-term employee benefit obligations

The liabilities for earned leave which is not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted at a predetermined rate of interest based on yields on Government Bonds that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

### o) Operating Segments

Operating segments are identified in accordance with the criteria set out in paragraphs 5 to 10 of Ind AS 108 viz. a component of an entity that engages in business activities from which the company earns revenues and incur expenses and the operating results are regularly reviewed by the entity's Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segment and assess the performance for which discrete financial information is available.

The operating segments are reported after taken into consideration of aggregation criteria and quantitative threshold as mentioned in Para 12 and 13 of Ind AS 108.

Operating segments are reported in a manner consistent with the internal reporting provided to the CODM of the company. The CODM is responsible for allocating the resources and assessing the

performance of the operating segments of the company.

**p) Leases**

The Company's significant leasing arrangements are operating leases and cancelable in nature.

**Company as Lessor**

The lease rental income under agreements are recognised in the statement of profit and loss as per the terms of the lease. The rental income from operating lease is generally recognised on a straight line basis over the term of relevant lease. When the rentals are structured solely to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Contingent rental income arising under operating leases are recognised as income in the period in which they accrue.

**Company as Lessee**

The Company's lease asset classes primarily consists of leases for land and building. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets, the Company assesses whether: (i) the right to obtain substantially all of the economic benefits from use of the identified asset through the period of the lease and (ii) the right to direct the use of the asset.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the

underlying asset or the site on which it is located, less any lease incentives received.

The Right-of-Use-Asset is subsequently measured at cost less any accumulated depreciation thereon. The right-of-use asset is depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. Lease liabilities are remeasured with a corresponding adjustment to the related Right-of-Use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and Right-of-Use asset have been presented in the Balance Sheet and lease payments have been classified as cash flows from financing activities. The Interest expense and depreciation relating to Right-of- Use Asset have also been disclosed in the statement of profit and loss.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases and leases of low-value assets. The Company recognises such lease payments relating to these leases as an expense on a straight-line basis over the lease term.

**q) Cash Flow Statement**

Cash flows are reported using the indirect method, whereby profit or loss is adjusted for the effects of transactions of non cash nature, any deferrals or accruals of past or future cash receipts or payments.

The cash flows from operating, investing and financing activities of the company are segregated based on the available information.

For the purpose of presentation of cash flow statement, cash and cash equivalents includes cash on hand, cheques on hand, bank balances, demand deposit with banks where the original maturity is three months or less and other short term highly liquid investments.

**r) Borrowings**

Borrowings are initially recognised at net of transaction costs incurred and are subsequently measured at amortised cost.

**s) Borrowing Costs**

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale are added to the cost of those assets. Borrowing costs capitalisation be commenced by the company when (i) incurs expenditure for the asset (ii) incurs borrowing cost (iii) incurs activities that are necessary to prepare the asset for its intended use or sale. All other borrowing costs are recognised as an expense in the statement of profit and loss in the period in which they are incurred.

**t) Events occurring after balance sheet date**

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed

**u) Recent Accounting Pronouncements and Application :**

The Ministry of Corporate Affairs, MCA vide notification dated 12<sup>th</sup> August 2024 and 9<sup>th</sup> September 2024, has issued amendment on Ind AS 117 - Insurance contracts and Ind AS 116 - Leases respectively. The Company has assessed that there is no impact on its financial statements.

The MCA has notified the amendments to Ind AS 21- Effects of Changes in Foreign Exchange Rates on May 9, 2025 which is applicable with effect from April 1, 2025. This amendment aim to provide guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The Company has assessed on preliminary evaluation that this amendment has no impact on the financial statements.

**NOTE 47. DISCLOSURE UNDER IND AS 19 :**
**i) DEFINED CONTRIBUTION PLAN :**

The Company has defined contribution plan like Provident Fund and Employees State Insurance Scheme for the benefit of employees. Contributions are made at the specified rate of percentage to payroll cost as per the regulations to fund the benefits. The expenses recognised in the statement of profit and loss is ₹ 871.32 Lakhs (₹ 836.08 Lakhs)

**NOTE 47. DISCLOSURE UNDER IND AS 19 Contd.... :****ii) DEFINED BENEFIT PLAN :****GRATUITY**

The company provides the Gratuity benefit through annual contributions to the fund managed by Life Insurance Corporation of India (LIC).

The defined benefit plans expose to the actuarial risks such as:

**a) Interest Rate Risk:**

The present value of the defined benefit plan obligation is calculated using a discount rate determined by reference to government bond yields. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the obligation.

**b) Salary Risk:**

The present value of the defined benefit plan is calculated based on the salary of plan participants in the future. Accordingly, an increase in salary of the plan participants will increase the defined benefit obligation and will have an exponential effect.

**c) Investment Risk:**

The present value of the defined benefit plan obligation is calculated using a discount rate determined by reference to government bond yields. If there are significant changes in the discount rate during the inter valuation period, it can result in wide fluctuations in the net liability or plan assets.

**d) Variability in mortality rates:**

The present value of the defined benefit plan obligation is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. If actual mortality rates are higher than the assumed mortality rate assumption, there is a risk of payment of gratuity benefits earlier than expected.

The following table sets out the details of the defined benefits obligations and amount recognised in the financial statements.

**F SENSITIVITY ANALYSIS**

The significant actuarial assumptions for the determination of the defined benefit obligations are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The defined benefit obligation increases / (decrease) as follows:

(₹ in Lakhs)

PARTICULARS	31.03.2025	31.03.2024
Discount Rate		
+100 basis points	(427.16)	(406.13)
-100 basis points	499.05	474.00
Salary Growth		
+100 basis points	478.05	452.14
-100 basis points	(419.40)	(396.92)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligations as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumption may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligations has been calculated using the Projected Unit Credit Method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

The expected contribution to the plan for the next Annual reporting period is ₹242.40 Lakhs (₹247.99 lakhs)

## b) Fair Value Hierarchy

### Fair Value Measurement Hierarchy of Financial Instruments :

The Company uses the following Fair Value Hierarchy for determining and disclosing the fair value of the financial instruments.

Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 : inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 : inputs that are unobservable for the asset or liability.

(₹ in Lakhs)

PARTICULARS	Note No.	Level 1	Level 2	Level 3	Total fair Value
Financial Assets at FVTOCI - 31.03.2025	5	440.36	--	--	440.36
Financial Assets at FVTOCI - 31.03.2024	5	307.21	--	--	307.21

**Fair Value Measured at amortised Cost:**

The carrying amount of financial assets and liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the company does not anticipate that the carrying amount would be significantly different from the values that would eventually be received or settled.

**NOTE 58. FINANCIAL RISK MANAGEMENT - OBJECTIVES & POLICIES**

The Company's principal financial liabilities includes borrowings, trade payable and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, trade receivables, cash and cash equivalents, Bank Balance other than cash and cash equivalent, loans and other financial assets that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management under the supervision of Risk management committee / Board of Directors oversees the management of these risks and the appropriate financial risk governance framework for the Company. The senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

**a) Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market price. Market risk comprises three types of risk: interest rate risk, currency risk and other risks, such as regulatory risk and commodity price risk. Financial Instruments affected by market risk includes investment, borrowings, trade receivable, trade payable and loans.

**i) Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings obligations with floating interest rate. Interest rate risk is managed by maintaining a combination of fixed and floating rate debt and cash management policies.

The carrying amount of Company's borrowings at the end of the reporting period is as under:

(₹ in Lakhs)

PARTICULARS	As at 31.03.2025	As at 31.03.2024
Borrowings with fixed rate of Interest	3105.48	5581.42
Borrowings with floating rate of Interest	11858.17	42976.51
<b>Total Borrowings</b>	<b>14963.65</b>	<b>48557.93</b>

The company determines the sensitivity of 25 basis points increase (or) decrease on borrowings with floating rate of interest. The impact on the Profit after tax at the reporting date, assuming outstanding balance and other factors remain constant for the whole year, except the rate of interest, would be ₹ 29.65 Lakhs (₹ 107.44 Lakhs).

**ii) Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rate. The Company's exposure to the risk of changes in foreign exchange rate relates primarily to the Company's foreign currency denominated financial assets and financial liabilities.

The carrying amounts of the Company's foreign currency denominated monetary assets and liabilities at the end of the reporting period is as under.

(₹ in Lakhs)

Foreign Currency	Liabilities		Assets	
	31.03.2025	31.03.2024	31.03.2025	31.03.2024
US Dollar	55.11	112.74	49.36	28.81
Euro	--	2.13	136.87	275.58
<b>TOTAL</b>	<b>55.11</b>	<b>114.87</b>	<b>186.23</b>	<b>304.39</b>

The above table represents total exposure of the Company towards foreign exchange denominated assets and liabilities. The details of unhedged exposures are given as part of Note No.52.

The company determines the sensitivity of 10% increase or decrease in the foreign currency rate. The impact on the profit after tax and total equity at the reporting date, assuming other factors constant except the exchange difference will be ₹ 13.11 Lakhs (₹ 18.95 Lakhs).

**iii) Other price risk**

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price. The Company is exposed to price risk arising mainly from investments in equity instruments recognised at FVTOCI. As at 31<sup>st</sup> March, 2025, the carrying value of such equity instruments recognised at FVTOCI amounts to ₹ 440.36 Lakhs (₹ 307.21 Lakhs). The details of such investments in equity instruments are given in Note No 5.

**b) Credit risk**

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument leading to a financial loss. Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. The Company had managed the credit risk with respect to trade receivables by selling majority of sugar sales covering minimal portion on credit basis.

The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties. The company manages the risk by credit

approval. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined /modified.

The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date. The company has recognised provision for Expected Credit Loss on the financial assets in the statement of Profit & Loss.

Financial assets are written off when there is no reasonable expectation of recovery. However, the Company continues to attempt to recover the receivables and are recognised in the Statement of Profit and Loss when recovered.

## c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result for an inability to sell a financial asset quickly close to its fair value. Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result for an inability to sell a financial asset quickly close to its fair value.

The Company has an established liquidity risk management framework for managing its short term, medium term and long term funding. The Company also has adequate credit facilities agreed with banks to ensure that there is sufficient cash to meet all its normal operating commitments in a timely and cost-effective manner.
